

Flying Geese Part 5

6 Part free project
based on
EB0029 Triangle Trail

Flying Geese Part 5 Filler Patterns 10, 11 and 12

Design Area: 9.43 x 9.43 inches.

Stitches: 139 x 139

Fabric: Zweigart 28 count evenweave or 14 count Aida, 14 x 14 inches. NB. If Aida fabric is used there may be some split blocks.

Threads:

Framework: Cross stitch two strands of floss, two skeins, or Cotton P rle No.12, one ball. The framework needs to be a strong colour. The filler patterns will be inserted into the cross stitch and back stitch framework.

Rainbow Gallery Petite Treasure braid or DMC Metallic E3852 dark gold, or an alternative thread may be used to add sparkle and interest.

Mill Hill Glass Beads are optional. MHG 557 Gold, one packet or alternative colour.

Tapestry Needle No.24

Small embroidery ring or frame

Add Filler Patterns 10, 11 and 12 This completes the triangles.

Use one strand of floss.

Choose colours you enjoy working with. They should be strong enough to show clearly on the fabric. If in doubt lay one strand across the fabric. If it does not make an impact choose a darker tone.

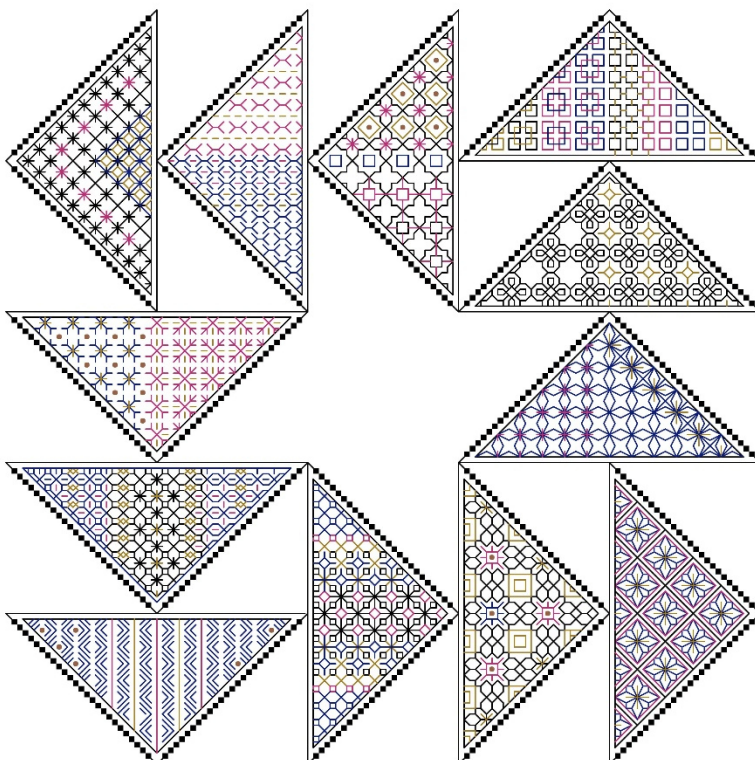

The design can also be embroidered in black and gold or black and copper, royal blue and gold or garnet as a red work design. The choice is yours!

Stitches used:

Back stitch, one strand

Cross stitch, two strands

Colonial knots or French knots, two strands

Method:

1. Follow the pattern sheet carefully. Complete each triangle in turn.
2. If metallic thread is included use short lengths to reduce fraying or use Rainbow Gallery Petite Treasure Braid which seldom frays.
3. Do not add beads until the end of the project. They are optional.

Next month the centre motifs will be added.
